Crypto

The Clarity act is coming to the Senate floor any day now. This bill doesn't protect consumers, doesn't close money laundering loopholes, and does nothing to stop the biggest threat of all: Trump's crypto-fueled bribery machine.

⚠️ Trump has already amassed [\\$1.4 billion in the last year alone](#), and the latest bill text doesn't include any meaningful ethics fix:

⚠️ It does not stop the main ways Trump has accumulated, and will continue to accumulate, crypto wealth. It would only restrict officials and their spouses from issuing or sponsoring new digital assets.

⚠️ It does not stop Trump's ongoing corruption: It doesn't stop his children from profiting off his office and it doesn't require him to divest from any of his businesses making crypto deals.
